

Transceiver Competence Certificate

May 2007 Version

As a qualified NZ Stage I Avalanche Safety Practitioner (or equivalent), I hereby certify that:

_____ (please print name)
has demonstrated basic transceiver competence skills including:

- Appropriate wearing method
- Conduct battery, and (search and send) signal checks
- Locate, via a verified probe strike, a single buried transceiver, (covered with a plywood 50 cm x 50 cm target), within 4 minutes. The target is to be buried at a minimum depth of 30cm and within a 20m X 20m area.*

Refer to MSC "Using Avalanche Transceivers" pamphlet or transceiver manufacturer's recommendations for the above skills.

***NOTE: Stage I assessment criteria will require candidate to perform similar task at a depth of 50cm. within 2 minutes on an inclined (10-20 degree) slope of same area. (You will enter the sloped area from the top.)**
